mpratsmunar@gmail.com ⋄ github.com/brouprats

EDUCATION

Technische Universität München October 2026 - Present
M.Sc in Mathematics

Universitat de les Illes Balears September 2022- June 2026
B.Sc. in Mathematics *Top 11%*

WORK EXPERIENCE

Grup Barceló June 2025 - October 2025
Meta-searchers Intern *Mallorca*

- Created Google sheets automations with App-script optimizing reporting workflows.
  -Engineered CSV to visualization automations to accelerate marketing reports
  -Built planning sheets to control budget allocation across hundreds of hotels and three digital platforms.
- Analysis of hotel ads data to improve marketing strategies

PROJECTS

Tative June 2026 - Present

- Developed a software to test trading strategies and optimize portfolios.
- Includes statistical time series analysis, LSTM, alpha library, portfolio analysis and optimization.
- Implemented an automated trading engine for live paper trading with Aplaca API.

ARIMA, ARIMAX and LSTM on four stock indices (Bachelor's Thesis) October 2025 - June 2026

- Grade: 10/10
- Comparison ARIMAX statistical models against LSTM neural networks to predict index movements.

Santander Explorer Participant September 2022- June 2023

- Participated in an entrepreneurial training program focused on business development.
- Designed a conceptual mobile app for finding local music spots.
- Demonstrated the project's strong viability by receiving an external offer to build the application.

CalTracker April 2026

- Constructed web application for mobile to track meal calories and macronutrients.
- Implemented a barcode reader to find data in Open Food Facts API.
- Improved continuously with sport, study hours and step from health Apple app tracking.
- Developed an custom MCP and skill set to be able read and write information with a LLM conversation.

TECHNICAL SKILLS

Languages Python, LaTex,
Mathematics Time Series Analysis, Machine Learning
